

# CMSC423: Bioinformatic Algorithms, Databases and Tools

## Lecture 18

Midterm recap  
Project 2 intro

# Midterm recap

- I.e. how I would have done it

# Project 2

- List of possible projects on syllabus page
- Pick one, or come up with your own idea
- Can be team projects as long as difficult enough
- Don't need to pick a different project than everybody else
- Part of deliverable will be a 2-page report – budget time for it.
- Homework: by Monday 3:30pm email me your project choice.
- Projects will be due May 7 (about 1 month)
- **START EARLY!**
- **DO WELL!**
