

# CMSC423: Bioinformatic Algorithms, Databases and Tools

Fall 2008

Instructor: Mihai Pop

TuTh: 11-12:15, CSIC 1122

**Prerequisites:** CMSC351 or permission of instructor

**Workload:** homework (10%), programming projects (30%), midterms + final (60%)

**Why take the class?** Learn about applying computer science to biology and medicine. Learn cool algorithms that are also useful in other areas of computer science. Many job opportunities: **Biotech industry needs you!**
